

WHO WE ARE

The Indian Drug Users' Forum (IDUF), established in 2009, is a national-level forum spanning all regions of India to promote the meaningful involvement of people who use drugs in policy reform and program development.

Our Vision

We work at the grassroots level in India to involve People Who Use Drugs (PUD) in shaping HIV/AIDS, health, and drug treatment policies, ensuring their voices restore their health and human rights.

Mission

- Advocate for the rights, dignity, and quality of life of People Who Use Drugs (PUD) in India.
- Champion for the PUD involvement in policy and program development.
- Work toward destigmatization and decriminalization to improve health and well-being.
- Integrate India's PUD movement with global efforts for collective advocacy.
